Education

Bennett University **Greater Noida, India**
Bachelor of Technology in Computer Science Engineering (AI) *2024 – 2028*

CGPA: 6.5

Technical Skills

Languages: Python, Java, C, JavaScript, HTML/CSS
Frameworks & Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, XGBoost, Streamlit
Machine Learning & Deep Learning: Supervised & Unsupervised Learning, Neural Networks, CNNs, Model Training & Evaluation, Feature Engineering
Tools & Technologies: Git, Linux, Windows, Jupyter Notebook, MATLAB
Databases: SQL, MongoDB
Specializations: Machine Learning, Deep Learning, Data Analysis, Algorithms & Data Structures

Certifications

Data Structures and Algorithms | *Infosys Springboard* **2024**
- Covered fundamental and advanced data structures including arrays, trees, graphs, and dynamic programming techniques essential for efficient algorithm design.

Introduction to Statistics | *Saylor Academy* **2024**
- Gained foundational knowledge in descriptive and inferential statistics, probability distributions, hypothesis testing, and their applications in data analysis.

Introduction to Linear Algebra with MATLAB | *MathWorks* **2024**
- Studied vectors, matrices, linear transformations, and eigenvalues using MATLAB, forming the mathematical backbone for machine learning algorithms.

Explore Machine Learning using Python | *Infosys* **2024**
- Hands-on course covering ML algorithms including regression, classification, clustering, and model evaluation using Python libraries such as Scikit-learn and Pandas.

Operating Systems and You: Becoming a Power User | *Google (Coursera)* **2024**
- Developed practical skills in navigating and managing operating systems including Windows and Linux, file systems, process management, and command-line tools.

Introduction to Microprocessors | *Arm Education (Coursera)* **2024**
- Explored microprocessor architecture, instruction sets, memory organization, and embedded systems fundamentals using ARM processor concepts.

Introduction to Java | *Infosys Springboard* **2024**
- Covered core Java programming concepts including OOP principles, exception handling, collections framework, and building console-based applications.

Additional Information

Languages: English, Hindi
Interests: Machine Learning, Deep Learning, Data Science, AI Research, Emerging Technologies
